### Missionaries From Japan To Give Talk

Two unusual services are planned Sunday, November 29 at the Foursquare Church 1207 El Prado. At 7:30 p.m., Rev. and Mrs. Carl Lucht and their three children, Gary, Sondra and John Michael, recently returned missionaries from Japan, will be speaking and showing pictures of the land of their calling.

Rev. and Mrs. Lucht went to China in 1948 and worked among the Chinese people until

REV. CARL LUCHT ... to speak on Japan

forced to evacuate by the Communists in January 1951. Rather than return home, they moved southward, going to Japan where they have done missionary work ever since.

They have been located in Hiroshima, site of the atomic explosion of World War II, and have worked out from there in many outlying regions.

The Luchts will also speak and show pictures at a combined group service scheduled for 6:30 p.m.

Decision Day, especially for children, is planned for the 10:45 a.m. service. The sermon topic "Just Supposin'" designed for the children will be brought by Rev. M. Lowen. The Sunday School bus will remain until after the morning worship hour.

Jack Davidson was elected chairman of the new association, Mrs. Elaine Stewart, vice-president and William Kinley treasurer-secretary.

**To Protect Health**  
"The sole objective of the South Bay Homeowners Association," Davidson declared, "is to protect the health of our citizens, their homes and their property against the evils of new and larger open-pit mines on Palos Verdes peninsula. We are determined to vigorously protest the proposed plan of the Great Lakes Corporation to start another mine in our midst under the camouflage of a 'grandiose master plan.'"

"We feel," Davidson said, "that many of our people have been misinformed on the objectives of the Great Lakes Corporation and its subsidiary, the Palos Verdes Rancho Corporation. This Association is launching an extensive campaign to provide our citizens with the true facts of how the 'Ex-Party Permit No. 942' was obtained from the Regional Planning Commission, and how another open-pit mine would affect them.

**House-to-House**  
"Volunteer citizens will make house-to-house canvass in the near future to provide pertinent information dealing with this controversial subject," Davidson explained.

Request of the Great Lakes Carbon Corporation for a permit to start the open-pit mine is now pending before the Los Angeles County Board of Supervisors. A full day will be accorded this issue on December 2, 1953.

**TV Hearing**  
"A complete review of both sides of the issue of open-pit mining on Palos Verdes peninsula will be dramatically presented Sunday evening, November 22, 1953, from 5 to 6 p.m., on the Freeman Lusk 'Freedom Forum,' television broadcast on Channel 13, KLAC-TV," Davidson announced. "We sincerely urge our south bay residents to view this highly important telecast."

**Youth Group Attends Rally**  
The Methodist Youth Fellowship attended a sub-district rally. It was held at H. Toberman Settlement House in San Pedro.

Over one hundred youth from the different Methodist churches in the harbor area attended. Meetings for the Methodist Youth Fellowship are held every Sunday at 6:30 p.m. at

the next Area Report Meeting. In all probability, it will be set for December 2.

"If this December 2 date is approved by leadership," Toll said, "it will give our 60,000 volunteer workers another two weeks to complete the assignments they promised to do."

"As of this date we have 75 per cent of our \$8,754,000 goal. This has been done on the strength of a little less than 500,000 pledges. While last year, it took 691,000 pledges to reach our goal of 8 million. This leaves us with a bright picture. With still 200,000 pledges unaccounted for, our goal is now within our grasp. If our volunteers will get out and finish up their jobs," Toll said in conclusion.

Perry, Crenshaw, North Torrance, and Karr elementary schools.

There are no other 10-acre sites available in the area anymore, it was indicated.

The greatest concern at present is over a new location. School officials fear that any other site would fall on one of the other side of the proposed freeway, making it difficult to get to. Whether a workable plan can be worked out depends on whether the highway will go above or below Yukon. School officials hope it will go below, so that Yukon will be kept open.
